Re: Health Safety of NextCentury NM4-I Water Meters

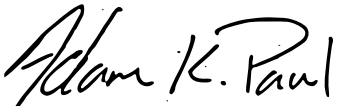
To Whom It May Concern:

The purpose of this letter is to declare that the NextCentury NM4-I series water meters meet the requirements and are safe for installation in potable water meter systems in Canada and the U.S.A. The meter is certified by NSF for compliance with NSF/ANSI/CAN 61 standards to ensure that all compounds with health effects do not exceed the Total Allowable Concentration (including regulated materials [such as lead] and volatile/semi-volatile organic compounds).

NextCentury NM4-I water meters bare the NSF seal certifying they are safe for installation in a potable drinking water system.

Sincerely,

Adam Paul



President & CEO, NextMeters, LLC

OFFICIAL LISTING

NSF certifies that the products appearing on this Listing conform to the requirements of
NSF/ANSI/CAN 61 - Drinking Water System Components - Health Effects

This is the Official Listing recorded on July 14, 2023.
