

LEAK DETECTION SOLUTION

-  Prevent Property Damage
-  Conserve Water
-  Peace of Mind

YOU ARE NOW PROTECTED BY THE NEXT METERS LEAK MONITORING SOLUTION

Water leaks are sometimes difficult to detect early on and can grow into major issues, resulting in damage to your personal property. The Next Meters Leak Monitoring Solution provides you with peace of mind.

An audible chirp will alert you to the location if a leak has been detected. After the problem is resolved, the rope sensor may take up to 30 minutes to dry out, at which point the audible chirp will stop.
