

Vision Metering

Vision ST Meter

New! California Type Approved

Form-1S, 2S, and 12S Vision ST Meters are now approved for use in California

At Vision Metering, customer input has dictated the specifications upon which our meters were designed and manufactured. Our meters continue to evolve based on the expectations of our customers.

Vision ST Meters are available with Next Century, installed inside the meters.

In order to combat theft, Vision Metering offers the option of using magnetically shielded power supplies and/or current transformers for added security.

Manufactured in the USA

COMMUNICATIONS
